ALL-ROUND PROTECTION: VEST & SKIRT

**NEW**  Available as ...
Premium Line - The Full Range
Comfort Line - The Economical Alternative

The two-part design optimally counteracts any stress on the body caused by heat or weight.

- Completely overlapping front parts for lead equivalent values of 0.25 mmPb, 0.35 mmPb or 0.50 mmPb on the front
- Ideal fit and amazing wearing comfort
- Suitable for long wearing times
- Clearly reduced weight on the spine
- Standard equipment includes shoulder pads and preparation for adaptable embroidery
- In the lower area, the skirt is also secured with a snap closure

Optionally, the vest can be fitted with a button-on stretch belt. This provides even more weight relief for the shoulders. Alternatively, the costume can be combined with our shoulder relief system BRYGGA.

* As model RA631 consists of two pieces, the following applies:
For the vest, the larger value of the chest and waist determines the size.
For the skirt, the larger value of the waist and hip determines the size.
ALLROUND PROTECTION – VEST & SKIRT

Back relief
The elastic insert in the back of the skirt makes it easier for users to maintain their posture in daily routines.

Free movement
For greater freedom of movement, the skirt has a cut-out at the back.

Overlapping area
In order to ensure protection during movement (e.g. when bending over), the vest has sufficient length and it overlaps the skirt.

Elastic insert
The insert in the rear of the skirt makes it easy for the user to hold their posture and this can be easily replaced if necessary, thanks to a zip.

High-quality hook-and-loop fasteners to close the vest and skirt are, of course, standard.

Patented safety
Ideal radiation protection is provided by colour-contrasting (Titan) safety zones on the sides and in the shoulder area. These are equipped with the full lead equivalent value of the front part and give you the certainty of being optimally protected in all situations.

Protection/lead equivalent
NovaLite, Leadfree or standard lead

- Front, optional: 0.25 mmPb, 0.35 mmPb or 0.50 mmPb
