Our RA660 range offers up-to-date radiation protection clothing which accompanies your active working day and provides outstanding service. The extraordinarily good wearing comfort is supported by the wide stretch insert on the back wings.

- Suitable for a wide range of applications with only frontal radiation exposure
- Ideal fit, maximum comfort for the wearer
- Suitable for long wearing times
- Optional “without protection” in the back, for reduced weight of the apron
- Standard equipment includes shoulder pads and preparation for adaptable embroidery

Our customers report that this model is their favourite front apron. This is because it can be taken on and off easily, fits the body well, stays in place well and provides shoulder relief.
