MAVIG's products are designed to offer solid protection and optimized functionality. The high quality acrylic shield allows for an excellent transmittance and unimpeded view. All edges and corners have been rounded and shatter-proof materials are used to minimize risk of injury.

MAVIG's patented Portegra2 suspension arm provides its industry known safety features and movement flexibility. The centrally guided shield with a special patient cut-out can be easily positioned over the patient and quickly removed in case of an emergency.

- Lead Acrylic Shield
