Made in Germany

MAVIG X-Ray Protective Shields – OT50002 & OT90002

MAVIG's products are designed to offer solid protection and optimized functionality. The high quality acrylic shield allows for an excellent transmittance and unimpeded view. All edges & corners have been rounded and shatter-proof materials are used to minimize risk of injury.

MAVIG's patented Portegra2 suspension arm provides its industry known safety features and movement flexibility. Combined with the centrally guided, compact shield, the system can be freely positioned over the patient and quickly removed in case of an emergency.
