Size Adjustment From Behind

Art.-No.: RP27156213 Mammary Gland Cover for Children

Made in Germany

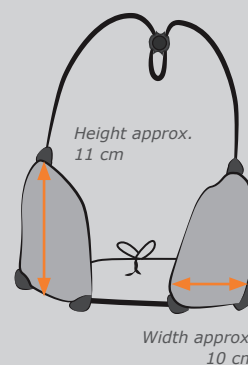

CE 0302

RP271 – X-Ray Protection for Paediatrics

The patient protection product for paediatrics reliably protects the mammary glands of your little patients during X-rays in medical diagnostics. The children's chest protector can be conveniently adjusted to the respective size required.

- ✓ Reduction of radiation exposure in the area of the mammary glands by about 80%
- ✓ Hygienically clean, skin-friendly outer cover
- ✓ Reusable, not a disposable product
- ✓ Comfortable, non-pressing neoprene stoppers
- ✓ Practical adjustment

- **Protective Material** Leadfree 2.0
- **Lead Equivalent** 0.50 mm Pb
- **Outer Cover/Colour** ComforTex® HPMF Plus available in design Happy
- **Size** Universal, easily adjustable
